

# COVID-19

## HEALTH CARE RESOURCE GUIDE FOR THE UNINSURED

In light of COVID-19, questions have arisen in the community about how people without insurance can access information, referrals, testing and other health care and medical advice. The following list outlines many of the safety net health care clinics in Colorado that serve a high percentage of patients without access to insurance. These clinics may have income-based sliding scale and discount programs for patients without insurance to get general health care as well as screening and referrals related to COVID-19.

### GENERAL QUESTIONS

**CO HELP Hotline** - Information in English, Spanish (Español), Mandarin (普通话), and more

- Call 303.389.1687 or 877.462.2911
- Operators cannot recommend whether or where to get tested, provide medical advice or help with prescriptions and they cannot provide testing results or provide work clearance

**Colorado COVID-19 website** - Information in English and other languages

- Updated daily at 4PM with answers to frequently asked questions and information

**Testing Information** - Information in English and other languages

- CALL OR EMAIL a health care provider first if you have symptoms or think you may have been exposed to COVID-19. If the provider recommends you get testing or care, follow the provider's advice BEFORE going into any health facility. Ask your provider about private lab sites where you can get tested
- DO NOT go to an emergency room to get a test for COVID-19 unless you are having a medical emergency. For COVID-19, that means severe respiratory symptoms such as shortness of breath or breathing difficulties.
- DO call 911 or go to an emergency room if you are having a medical emergency
- You must have an order from a health care provider to get tested for COVID-19 at a state testing site
- There is NO COST for testing done at a state laboratory and it does not require proof of insurance or documentation
- Testing at state laboratory requires a photo ID; individuals without documentation can use any photo ID, it does not have to be government-issued
- This [map](#) shows community testing sites that have had their plans approved by and received testing supplies from the state of Colorado. It is not a comprehensive map of all testing sites in the state of Colorado.

### STATEWIDE COVID-19 LINE

A free hotline for COVID-19 [screening and telehealth service](#) for Coloradans who do not have health insurance. Call 720-902-9449 (local) or 1-855-963-3721 (toll-free). Available in Spanish.
